

**PURE-HYPR AUDIO**

# SB-100

## USER MANUAL

1 Speaker

2 Usb C Socket

3 Button

4 Led Indicator

5 Hole For Cord

6 Hole For Mic

### Charging the battery:

1] Insert the charging cable into the matching USB Charge port on the speaker. The USB plug on the opposite end can be plugged into any 5V powered USB port.

2] After charging is complete, the LED indicator will turn off.

Note : When music volume goes down and you hear the battery warning signal, this means the battery is too low and the speaker needs to be charged.

### Bluetooth pairing:

1] a) Turn on the speaker by pressing "⏻" button for 3 seconds. The speaker will have a sound signal and blue indicator light.  
b) Stereo mode (only for two speakers):

Pair the speakers together before pairing to your device. If you have already paired the **SB-100** to your device, please go to the Bluetooth settings on your device and forget or remove the paired device. Power on two **SB-100s**. Double press "⏻" on one **SB-100 speaker**. Connected sound signals will alert you when speakers are paired successfully. After the speakers have paired together you can then search for and add the **SB-100** to your device.

2] Turn on your device and activate the Bluetooth function.

3] Search for Bluetooth pairing name "**SB-100**" and click to pair. The speaker will pair automatically and the speaker will have a chime indicating that the connection completed. The blue indicator will light on.

Then, press the "⏻" button to answer the call when the call is coming in or take a photo when the camera is open on your device.

4] Turn off the speaker by pressing "⏻" button for 4 seconds

### Transfer between selfie mode and keyboard mode:

Double click "⏻" button of the speaker to transfer the selfie mode and keyboard mode (you will hear a shutter sound). Under selfie mode, one click takes a photo when the camera app is open, (If the camera app is not open, continuously click to turn the volume up.) ; Under keyboard mode, click once to play/pause. Note: The speaker is in keyboard mode by default.
