⚙️ **Troubleshooting**

Don't attempt to repair the speaker to prevent electric shock or further damaging it. Please refer to the following solutions if you have a problem as follows:

- 1] No Sound from the speaker?
 - 1] Check whether the speaker is on.
 - 2] Confirm the SS-100 is connected via bluetooth to the selected device.
 - 3] Confirm the SS-100 is in range of the selected bluetooth device.
- 2] What to do when it has distortion of sound at the high volume.
 - 1] Confirm that the battery has sufficient charge
 - 2] Move the SS-100 closer to the paired bluetooth device.
 - 3] (If in use) Confirm the 2.5 Aux input line is not loose or damaged.

Safety regulations.

- 1] Read and observe the safety regulations first.
- 2] Any cut surface, uneven surface, metal parts or accessories may cause injury. Please be careful with use.

08

- 3] The speaker is not a toy and is not edible. Keep out of reach of small children.
- 4] Do not refit, replace or disassemble any portion of this device. Incorrect handling may result in a short circuit, product damage and possibly even fire.
- 5] Disassembled, damaged or modified product will not be covered under any warranty claim.
- 6] Do not use any chemicals or high pressure to clean the product.
- 7] Constant full volume can place undue strain, reducing the lifecycle of the speaker components.
- 8] Do not drop, stack or use mechanical pressure on any portion of this device.
- 9] This device may cause disturbance on other sensitive electronic devices nearby.
- 10] Stop using at once if any abnormal symptoms occur while in use.
- 11] DO NOT EXPOSE TO FIRE OR HIGH TEMPERATURES.
